

The National EMS Academy is partnered with CoAEMSP Accredited campus Texas A&M Engineering Extension Services (TEEX) to offer a 12 month Paramedic course. This program will equip students with advanced life saving skills and enable them with the knowledge needed to be exceptional EMS Professionals at the Paramedic level. In order to register for this course, a student must hold a valid EMTB certification.

Class will meet twice a week, 8am to 5pm, on an alternating schedule: Monday/Tuesday one week and Wednesday/Thursday of the next week.

Below is a current cost list. Prices are subject to change.
